Whitepaper: FLIBBITY (FBT) – The Unflippable Flippening

Version 1.2 – August 2025

1. Introduction: What is FLIBBITY?

The crypto universe is filled with dogs, frogs, and questionable promises to save the world. It's serious, it's complicated, and frankly, it's a little boring.
And then, there's FLIBBITY (FBT).
FLIBBITY isn't another dog coin. It's not a cat coin. It's not a revolutionary payment system or a decentralized AI. FLIBBITY is a pure, unadulterated digital emotion. It's the feeling you get when your toast lands butter-side up. It's the sound you make when you realize you've been wearing your t-shirt inside out all day.
FLIBBITY is a meme coin on the Solana network, born on the legendary pump.fun platform. Our one and only goal is to execute "The Unflippable Flippening" – not to overtake Bitcoin or Ethereum, but to flip the script on boredom and unnecessary complexity.
Our Motto: *Don't just hold it, flibbit!*

2. Vision and Mission

- Vision: To create the most fun and least serious community in all of DeFi. We want people to laugh, create memes, and enjoy the ride, whether the charts are going up, down, or sideways.
- Mission: To unite meme lovers, degens, and crypto enthusiasts under a single banner. Our immediate mission is to grow our community and successfully launch on the Raydium DEX, establishing a permanent and secure foundation for the project.

3. Tokenomics (The Flibbonomics)

FLIBBITY's tokenomics are designed for fairness and transparency.

- Token Name: FLIBBITY
- Ticker: $FBT
- Blockchain: Solana
- Token Address: J1AR1CHtTsSLr84zUXniikbVpe1YfF7mmv2QBGs8pump
- Total Supply: 1,000,000,000 FBT
- Taxes: 0% Buy Tax, 0% Sell Tax.
- Launch Model: Fair launch on pump.fun. Upon reaching the bonding curve goal, the token will migrate to Raydium, and the liquidity pool will be

automatically and permanently burned. This process ensures the project is safe and un-ruggable.

4. Roadmap (The Path to Flippening)

Our journey is just beginning. Here's how we get there together.

- Phase 1: The pump.fun Era
  - Fair launch on pump.fun.
  - Build the core community on X, Discord, and Telegram.
  - Fill the bonding curve to trigger the automatic migration to Raydium and the burning of the liquidity pool.
- Phase 2: The Raydium Launch
  - Official launch on the Raydium DEX.
  - Update DEXTools and DexScreener with our official logo and social links.
  - Begin the application process for CoinGecko and CoinMarketCap.
  - Launch the first community meme contests.
- Phase 3: The Meme-pocalypse
  - Secure listings on CoinGecko and CoinMarketCap.
  - Achieve trending status on major DEX tracking platforms.
  - Grow the community to thousands of "Flibbiters".
  - Launch the official FLIBBITY YouTube channel with community-created content.
- Phase 4: Beyond the Moon
  - The future of FLIBBITY will be decided by the community. Our goal is to continue growing, innovating with new ideas, and never losing the sense of fun that started it all.

5. Official Links & Community

- Token Address: J1AR1CHtTsSLr84zUXniikbVpe1YfF7mmv2QBGs8pump

6. Disclaimer

FLIBBITY ($FBT) is a meme token with no intrinsic value or expectation of financial return. It is a community-driven project created for entertainment purposes only. The cryptocurrency market is extremely volatile; please invest only what you are willing to

lose. This document does not constitute financial advice. Always Do Your Own Research (DYOR) and, most importantly, have fun.
